I want to live under a palm tree
me, a shaggy hermit, a modern, lion-less St. Jerome.
somewhere unplugged from Stupid FM
where the only boring person is me.
and I share the neat air only with the palm tree
not with 7.5 billion lifeless zombies
walking so slow...ly
and I will find myself laughing
at all 7.5 billion of them and the ones to come.
if such a place will ever exist.
